Introduction

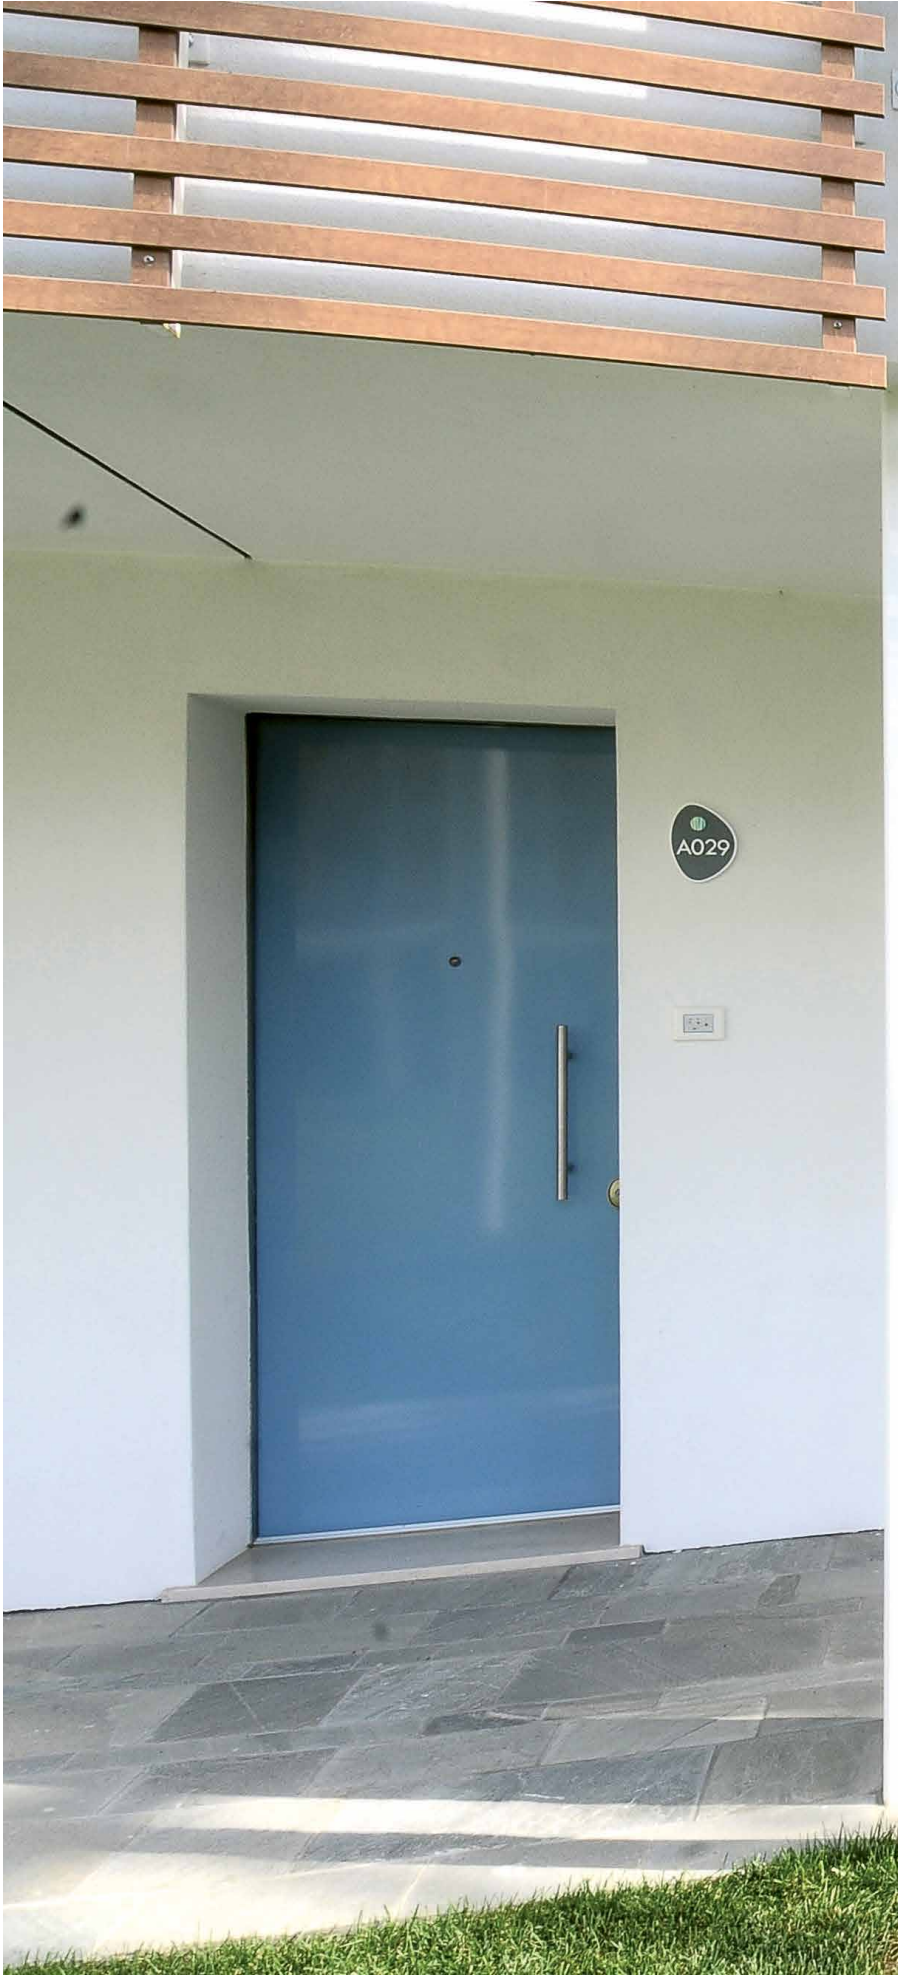

The handle is an element that gives personality to your security door. Combined with the panel, it adds uniqueness to your entrance.

The height of the handles is standard at 93 cm from the ground, in accordance with the Decree of the Ministry of Public Works, June 14, 1989, No. 236 - Technical prescriptions necessary to ensure accessibility, adaptability, and visitability of private buildings and publicly subsidized and facilitated residential construction, for the purpose of overcoming and eliminating architectural barriers.
